

PLANNED MAINTENANCE FOR YOUR FORKLIFTS

Planning Pays!
Planning Saves!
And Get It Done At Your Facility!

The Benefits of Planned Maintenance:

- ✓ Extends the life of the unit and operation time
- ✓ Improves productivity and increases up-time
- ✓ Equipment performs more efficiently
- ✓ Ensures units remain in safe working order
- ✓ Reduces spikes in maintenance and repair costs
- ✓ Protects your investment
- ✓ Enables you to predict maintenance expenses
- ✓ Maintenance frequency is designed around how you use your forklift, its application, hours & shifts
- ✓ Ability to catch minor repairs before they turn into major ones
- ✓ Reminds your staff that the units will not be overlooked and neglected
